

Fusing NanoTechnology and Nature to Bring You One of the Most Revolutionary Cleaners of Our Time!

It will change the way you think about cleaning products and your life!

Over 

- ◆ Feel good about the environment you are leaving behind for future generations.
- ◆ Sleep well knowing your family and pets are safe in a naturally clean environment.
- ◆ Avoid headaches by having only one cleaner to tackle most of your household cleaning chores.
- ◆ Lower your home cleaning cost by having to buy only one all-purpose cleaner.

The Power of Nanotechnology Brings You a Completely Biodegradable, Nontoxic, Cleaner Which Can Handle Your Toughest Cleaning Jobs!

Moms all natural formula boasts a unique cleaning solution that is...

- **Totally Nontoxic-Derived from plant and vegetable oils.**
- **Totally Biodegradable - An earth friendly solution.**
- **Strong enough to tackle some of your toughest cleaning jobs yet gentle enough to wash your face.**
- **Versatile enough to handle almost any cleaning job.**
- **Safe to use around pets and children without having to worry about toxicity or poisoning.**
- **Contains no chemical surfactants which leave behind a toxic residue.**

The secret to Moms All Natural Cleaner lies in it's Colloidal Micelles base. These are submicroscopic particles that can penetrate oil molecules and break them down into biodegradable components.

Nanotechnology is used to create these Colloidal Micelles. Since all products used to create Moms All Natural are plant or vegetable based oils that are listed on the FDA safe list, no warning label of any type is required.

You only need three things to get the best results from your Moms All Natural.

- **Heat - Moms works best when the solution is warmed- run lukewarm water over the bottle before use.**
- **Time - To get the best results let Moms sit on the surface for a while before rinsing or wiping dry.**
- **Agitation - Agitate gently with a brush to help loosen stubborn stains.**

One word of Caution!

Moms All Natural is a powerfully strong cleaner that has been known to attack different cleaning projects in different ways.

If you are cleaning painted or stained surfaces or even dyed or color treated fabrics ...

Be sure and test a small inconspicuous area beforehand to avoid damage to entire surface.

This cleaner will dissolve just about any oil based surface including paint.
